Oregon Bioscience Association is pleased to announce our first Medford Meet Up! Join your biotech and life science colleagues for some casual networking. Oregon Bio staff will be on hand to talk about our trade association activities while getting to know the bioscience community in White City, Medford, Ashland and Jackson and Josephine counties.

The Oregon Bio provides a unified voice for the Oregon bioscience community by:

- Representing the bioscience research-to-commercialization process
- Accelerating the growth of the biosciences industry in all parts of Oregon
- Enhancing the state's bioscience business and research climate
- Helping attract and retain bioscience talent and companies
- Vigorously working to improve the quality of the bioscience workforce
- Partnering with government at all levels to achieve its goals
